in a tax abatement Agreement may not exceed 10 years pursuant to § 312.007(b) of the Texas Tax Code and other authority; therefore, no variance can be granted regarding that mandatory statutory issue.

(D) **Variance Standards** -- A variance to a requirement of these Guidelines may be granted by the Commissioners Court, within its lawful authority, discretion, and best business judgment, only when the evidence and the attendant circumstances establish that:

- (1) a special circumstance exists which, if the Guidelines are strictly enforced, will deprive Applicant of a privilege or use enjoyed by other developers with projects of similar timing and scope of development.
- (2) the variance will be a minimum departure from these Guidelines, and not be violation of federal, state, or other local law;
- (3) the variance will not create a special privilege or use for Applicant not enjoyed by similarly situated property or developers;
- (4) the variance must be based on the general intent of these Guidelines and in the public interest;
- (5) the variance must not prevent or impair the safe, healthy, or orderly development of other land in the County; and
- (6) the evidence must show that: (a) all application fees, if any are required, have been paid to the County -- unless the Applicant is a unit of government and the fees are waived by a variance grant, with pecuniary hardship, standing alone, not deemed to constitute an undue hardship or special circumstance to support a fee variance; and (b) a delinquent ad valorem tax liability is not owed by Applicant to any Affected Jurisdiction or other Zavala County taxing entity.
